

**NAME: NISHITA**

**ROLL NO.: 22105069**

**PROJECT: KNOW YOUR WORLD**

### **What I'm making?**

In the Know Your World project, I'm creating a user-friendly web application that allow users to explore detailed information about countries worldwide. By simply entering a country name, user can access data like geographical positions, capital, currency details and population statistics. Leveraging HTML, CSS, JavaScript, and Fetch API, knowYourWorld aims to provide informative platform for users.

### **API Links:**

- **Position:** "<https://countriesnow.space/api/v0.1/countries/positions>"
- **Currency:** "<https://countriesnow.space/api/v0.1/countries/info?returns=currency>"
- **Capital:** "<https://countriesnow.space/api/v0.1/countries/info?returns=capital>"
- **Population:** "<https://countriesnow.space/api/v0.1/countries/population/cities>"
